- TypeScript
- Redux

Soft Skills

- Project Management
- Problem Solving
- Creativity
- Leadership
- Communication Skills

Work Experience

2022 -2023

1 years

Smart exam monitoring system

smart exam monitoring system is to effectively evaluate the examinees thoroughly through a totally automated system that not only reduces the required time but also obtain fast and accurate results. This system will provide a highly available, resilient, and scalable platform that can replace the existing examination systems which are known for their low availability, fault intolerance, high costs associated with human, logistic, and administration.

2020-2022

1.5 years

Web Testing | Intern | condigital.io

check all aspects of the web application's functionality, including looking for bugs with usability, compatibility, security, and general performance
